

White City (Hull) Road Running Club

Privacy and Data Protection Policy

1. Background

White City (Hull) RRC ("**White City**") is a running club committed to protecting the data and privacy of its members including committee members and club officials.

2. Collection of personal data

Personal data, as defined by the Information Commissioner's office (ICO) is collected by **White City** for the purposes of club membership.

Personal data may be collected when corresponding with Club Officials, Committee Members and other club members via phone, texts, email and social media (such as Facebook pages and WhatsApp messenger groups).

Personal data is collected primarily by completing a membership form when joining **White City**. The information collected includes name, date of birth, address, e-mail address, phone number, gender and name of any other England Athletics (EA) affiliated Clubs with which the new member is already registered at the time of joining.

3. Why personal data is collected

The reason White City collects personal data is to be able to administer membership and provide services of the club when a member registers with **White City**.

The lawful basis for processing personal data is that there is a contractual obligation with members to provide the membership and services being registering for.

The reasons personal data is processed includes:

- processing of membership forms and payments for **White City** membership, including for EA affiliation and membership of Hull and East Riding Sports club for facility use
- sharing data with other club members (including club officials and committee members) to provide information about club activities, social events and races
- processing and publishing of race and competition results (e.g. club handicap or Champagne League)

4. Who personal data is shared with

White City uses a membership system called "ConnectMyClub" to store membership details and provide a club app and website. Members choose their privacy options from within the app. The company who provides ConnectMyClub is called Arden Twenty. A copy of their Privacy Policy and FAQs in relation to data protection is given in Appendices 1, 2 and 3.

When a person joins **White City** they may also become a registered members of Hull and East Riding Sports Club and England Athletics.

Privacy and Data Protection Policy

White City passes personal data of the member to England Athletics (e.g. name/address/email). EA then contacts the member to invite them to sign into and update the "MyAthletics portal". The member can set and amend their privacy settings using the "MyAthletics portal". Members can contact EA directly with any questions about their privacy policy and use of personal data, the current email is: dataprotection@englandathletics.org.

White City passes personal data of the member to Hull and East Riding Sports Club (H&ERSC) via their membership form. H&ERSC then registers them as a member and issues a membership card, which are issued annually. This allows use of the sports facility (toilets, showers), gives discount on food and drinks purchased at the on-site bar and allows free hire of the function room. **White City** confirms to H&ERSC annually which members have renewed their membership, as well as the club's trustee delegate to H&ERSC. Members can contact H&ERSC directly with any questions about their privacy policy and use of personal data, the current email is: hersportsclub@gmail.com.

White City may pass personal data (name) to organisers of local running club races and leagues throughout the season, if the member consents to entering such races. Examples include the Champagne League and Winter League, run by City of Hull AC and the Summer League, run by East Hull Harriers. The responsibility for processing personal data lies with the organising club and members should contact the relevant club directly with any questions about personal data.

White City does not process data for any other purpose than those detailed in this privacy policy, or if required for Safeguarding / Welfare reasons according to the Safeguarding Policy and does not provide or sell any personal data to other third parties.

5. Social Media

White City may use the following social media platforms: Facebook and WhatsApp. All members are free to join these pages/groups. It is important to note that the social media platforms have their own privacy and data protection policies for which **White City** is not responsible and cannot accept any responsibility or liability for. Members should review the relevant social media platform's policy before joining or using these platforms to submit any personal data on **White City** social media pages/groups.

6. How long personal data is kept

White City keeps personal data on file for as long as someone is a paid member of the club. Once a member leaves White City, is deemed to have resigned per the Constitution or is removed from White City for any reason then their data will be removed from the ConnectMyClub system.

7. Rights regarding personal data

Members have the right at any time to:

- request access to their personal data
- rectification of their personal data
- erasure of their personal data
- to restrict or object to certain kinds of processing of their personal data, including direct marketing
- to object to the portability of their personal data
- to complain to the UK's data protection supervisory authority, the Information Commissioner's Office about the processing of their personal data.

Any request of the above must be made by the member themselves to whom the personal data relates to. Contact a Club Official for any enquires about personal data held by **White City**.

Prospective and existing members are not obliged to share their personal data with **White City**. However, if a prospective or existing member chooses not to share personal data with **White City**, then the club may not be able to register or administer their membership.

APPENDIX 1 – ConnectMyClub FAQ on Data Security and Usage

Frequently Asked Questions (updated: 30/10/2020)

DATA SECURITY

Does connectMyClub follow Data protection by design and default?

Yes, as a base for connectMyClub we use an actively developed framework which offers the latest security features and best development practices.

What measures does connectMyClub take to protect the data we hold?

Our server is held in a UK data centre with an active firewall. Strong passwords are required for access and connections are limited for root access by IP address.

Where is connectMyClub developed?

connectMyClub is developed by us, in Warwickshire. We do not use any third party developers.

Where is the data hosted and who hosts?

The data is hosted in a UK data centre with the data centre managed by ProStack (<https://prostack.uk/>). The server is owned by Real Point Media Ltd and managed by them.

Is the data transferred at any point outside of the UK?

The only data transferred to a third party is to support club emails and mailing lists and user transactional emails e.g. password reset emails. The third party company to which we subscribe for this service uses data centres based within the EU.

What measures does connectMyClub take to protect against cyber attacks on the data we hold?

There is a dedicated firewall with active monitoring for DDoS and penetration attempts.

Have connectMyClub experienced any data breaches in the recent past?

We have not experienced any data breaches.

For what period of time does connectMyClub retain out of date data?

The system we have developed does not generate any 'out of date' data. If a club member leaves the White City Hull RRC it is the responsibility of White City Hull RRC to remove said person from its members list. When a club member is removed from the White City Hull RRC members list the ex-club member's club related data is deleted.

How does connectMyClub backup the data and what systems are in place to protect the backups

Data is backed up hourly in a separate data centre with the same security levels as the primary server.

Data Usage

What uses does connectMyClub make of club, club members', and user data?

connectMyClub delivers White City Hull RRC and its members' data to connectMyClub or connectMyClub app to support club organisation.

Does connectMyClub use the White City Hull RRC data for any marketing purposes?

White City (Hull) Road Running Club

Privacy and Data Protection Policy

Simple answer. No.

Is the data shared with other parties, or are other parties able to access the data for any reason?

As above, no. We are completely independent company. We feel that we are simply the custodians of any data entered into connectMyClub by White City Hull RRC or by its members. It's not for us to use, only to deliver back to club and club members in an easy to use manner, whether that be through connectMyClub or connectMyClub app.

Who is the data controller?

connectMyClub and White City Hull RRC are Joint Data Controllers. White City Hull RRC is also a Data Processor. For White City Hull RRC data you remain the data controller, connectMyClub act as data processors.

What does connectMyClub do with the data from members who are no longer active club members

When a club member leaves White City Hull RRC and the White City Hull RRC removes the ex-club member from its members list their data is deleted as it is no longer required by White City Hull RRC.

Does connectMyClub, or any third parties, ever use the data to contact White City Hull RRC members?

As White City Hull RRC is our client, and not the club members, we will never send marketing based emails to unregistered club members.
